

European curriculum vitae

Personal information

- **First name and surname:** Enrico CRESCIMANNO
- **Address:** [REDACTED]
- **Telephone:** [REDACTED]
- **Email:** [REDACTED]
- **PEC:** enrico.crescimanno@ingpec.eu
- **Nationality:** Italian
- **Date of birth:** [REDACTED]
- **Tax code:** [REDACTED]
- **Organisation:** Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta, Via Bologna 148, 10154 Turin, Italy
- **Current position:** Executive at the Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta. Permanent contract since 1 August 2024. Expert in the coordination of complex technical activities, including Facility Management and public procurement of works, services and supplies (Legislative Decree No. 36/2023, Public Contracts Code).
- **Qualification:** Executive Engineer and Head of the Technical and Asset Management Department since 1 March 2026, under the National Collective Labour Agreement for the Local Functions Area. By Resolution of the General Director No. 41/2026 of 17 February 2026, Dr. Enrico Crescimanno was granted a five-year appointment as Head of the Technical-Asset Simple Structure. He has solid experience in the management and execution of complex public works, gained through high-responsibility roles in construction, plant engineering, safety, fire prevention, and structures. He has worked with leading engineering and architectural firms at national level, contributing to strategic assignments for public administrations. As an Executive Engineer, he developed distinctive skills in project and construction management, multidisciplinary coordination, and technical-administrative supervision of high-impact projects. At the Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta in Turin, he served as Project Manager under Legislative Decree No. 36/2023 in the planning, design, procurement, and execution phases, coordinating public and healthcare building works. At the Piedmont Region, he also acted as designer, works supervisor, inspector, and technical consultant supporting the Single Project Procedure Manager and the Project Manager, with full command of the entire lifecycle of works, from building and plant aspects to civil infrastructure.

- **Administrative mandate:** President of District 5 (Borgo Vittoria, Madonna di Campagna, Lucento, Vallette) of the City of Turin, term 2021–2027. Liaison with the General Director of the City of Turin in the context of the new organisational model introduced in 2022. Ongoing relations with the top management of SMAT, AMIAT, SORIS and IREN. Appointed by Prefect Dr. Raffaele Ruberto on 21 December 2022 as member of the Prefectural Security Table for District 5, where representatives of the Financial Police, State Police, Municipal Police and Carabinieri sit. Experience in reviewing and monitoring the budget of District 5 of the City of Turin (Legislative Decree No. 118 of 23 June 2011), according to the framework provided by the Consolidated Law on Local Authorities, Legislative Decree No. 267/2000.

Work experience

- **1 March 2026 – present**

Employer: Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta, Via Bologna 148, 10154 Turin, Italy

Sector: Public health body with legal personality under public law

Position: Executive Engineer, Head of the Technical and Asset Management Department

Main duties: Ordinary and extraordinary maintenance of the Central Headquarters and the Institute's Territorial Sections; tendering for public works and monitoring contract performance; management of the real estate assets.

- **16 February 2025 – 28 February 2026**

Employer: Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta, Via Bologna 148, 10154 Turin, Italy

Sector: Public health body with legal personality under public law

Position: Executive Engineer with High-Specialisation Professional Assignment in the Technical and Asset Management Department

Main duties: Ordinary and extraordinary maintenance of the Central Headquarters and the Institute's Territorial Sections; tendering for public works and monitoring contract performance; management of the real estate assets.

- **1 August 2024 – present**

Employer: Experimental Zooprophyllactic Institute of Piedmont, Liguria and Valle d'Aosta, Via Bologna 148, 10154 Turin, Italy

Sector: Public health body with legal personality under public law

Position: Executive Engineer in the Technical and Asset Management Department

Main duties: Ordinary and extraordinary maintenance of the Central Headquarters and the Institute's Territorial Sections; tendering for public works and monitoring contract performance; management of the real estate assets.

- **1 January 2019 – 31 July 2024**

Employer: Piedmont Region, Piazza Castello 165, Turin, Italy

Sector: Public body – Staff of the Financial Resources and Assets Directorate

Position: Officer responsible for technical design activities, Category D7, with horizontal economic progression within the category and a high-professionalism position; later “Fascia A” organisational position, subsequently renamed “Elevated Qualification”, titled “Expert for building and plant design of regional offices”.

Main duties: Coordination of complex technical activities in the verification of property acquisitions; coordination of design and management teams, plus technical support to the Single Procedure Manager and the Contract Execution Director for functional redevelopment and new construction projects involving the regional estate and other entities; technical interface with administrators, public and private bodies, directors and professional studios; support in public procurement procedures; member of tender committees and project validation groups; collaboration with the RSPD on emergency and evacuation planning; expertise for Declarations of Conformity; design of gas, heating, plumbing, electrical, special and fire protection systems; feasibility studies; works supervision; contract execution direction; technical inspections; static testing; drafting of preliminary project documents and safety plans; auditing during construction; conference service participation; technical opinions on complex interventions; cost reviews and valuations; habitability and usability procedures; compatibility assessments; and technical reviews of external design work.

- **1 January 2009 – 31 December 2018**

Employer: Piedmont Region, Piazza Castello 165, Turin, Italy

Sector: Public body – Staff of the Human Resources and Assets Directorate and later the Financial Resources and Assets Directorate

Position: Officer responsible for technical design activities, Category D6, with a high-professionalism organisational role titled “Expert for the building and plant design of regional offices”.

Main duties: Coordination of design groups and works management for functional redevelopment of regional properties; coordination of public administration interventions in Facility Management and Project Management; close collaboration with professional studios operating in Italy and abroad.

- **3 September 2007 – 31 December 2008**

Employer: Piedmont Region, Piazza Castello 165, Turin, Italy

Sector: Public body – Staff of the Heritage and Technical Directorate and then the Human Resources and Assets Directorate

Position: Officer responsible for technical design activities, Category D5, with a high-professionalism organisational assignment titled “Expert for the building and plant design of regional offices”.

Main duties: Coordination of design and works supervision groups for functional redevelopment of regional properties; coordination of public administration interventions in Facility Management and Project Management; close collaboration with professional studios operating in Italy and abroad.

- 8 January 2007 – 2 September 2007**
Employer: Piedmont Region, Piazza Castello 165, Turin, Italy
Sector: Public body – Staff of the Heritage and Technical Directorate
Position: Officer responsible for technical design activities, Category D5, with a Type A organisational role titled “Regional offices. Building and plant design”.
Main duties: Coordination of design and works supervision groups for functional redevelopment of regional properties; coordination of interventions addressed to public administration in Facility Management and Project Management.
- 1 January 2006 – 7 January 2007**
Employer: Piedmont Region, Piazza Castello 165, Turin, Italy
Sector: Public body – Heritage and Technical Directorate – Technical Department
Position: Officer responsible for technical design activities, Category D5, with a Type C organisational role titled “Technical activities for asset management”.
Main duties: Design and works supervision for plant systems of properties in the regional estate; coordination of public administration interventions in Facility Management and Project Management.
- 21 June 2004 – 31 December 2005**
Employer: Piedmont Region, Piazza Castello 165, Turin, Italy
Sector: Public body – Heritage and Technical Directorate – Technical Department
Position: Officer responsible for technical design activities, Category D4, with a Type C organisational role titled “Technical activities for asset management”.
Main duties: Design and works supervision for plant systems of properties in the regional estate.
- 1 January 2004 – 20 June 2004**
Employer: Piedmont Region, Piazza Castello 165, Turin, Italy
Sector: Public body – Heritage and Technical Directorate – Technical Department
Position: Officer responsible for technical design activities, Category D4
Main duties: Design and works supervision for plant systems of properties in the regional estate.
- 10 January 2001 – 31 December 2003**
Employer: Piedmont Region, Piazza Castello 165, Turin, Italy
Sector: Public body – Heritage and Technical Directorate – Technical Department
Position: Officer responsible for technical design activities, Category D3, appointed through public competition
Main duties: Design and works supervision for plant systems of properties in the regional estate.
- April 2000 – December 2000**
Employer: Lear Corporation, Grugliasco, Italy
Sector: Private American company producing automotive seats and electrical systems

Position: Trainee

Main duties: Inspector responsible for evaluation on behalf of the company, both general and for checking compliance with ISO 9000 and QS9000 quality system standards, in cooperation with certification bodies.

- **October 1999 – March 2000**

Employer: S.T.D. Project Group, Turin, Italy

Sector: Associated professional engineering firm

Position: Assistant in the design of HVAC/mechanical-fluid systems

Main duties: CAD drafting, sizing of mechanical-fluid systems, preparation of bills of quantities and cost estimates, and reports under Law 10/91.

Education and training

- **Qualification:** Classical High School Diploma from Liceo “Rosmini” in Turin; Degree in Mechanical Engineering with a specialisation in Thermotechnics from the Politecnico di Torino, awarded on 14 October 1999, old system degree prior to Ministerial Decree 509/99.
- **Degree thesis:** Fire protection project (project exam) for the issuance of conformity approval by the Provincial Fire Brigade Command for the garage located in the basement of the Piedmont Region building in Piazza Castello 165, Turin.

Other qualifications

- Professional qualification to practise as an Engineer, awarded by the Politecnico di Torino in the second session of 1999.
- Member of the Order of Engineers, Province of Turin, register no. 8070X, since 9 February 2000.
- Master in Administrative Law organised by the Piedmont Region.
- Attendance certificates for training courses and seminars organised by the Order of Engineers on organisational/managerial and technical-specialist topics, including public works management, managerial skills, public procurement rules, workplace and construction-site safety, fire regulations, and design of mechanical-fluid, electrical and special systems.
- Certificate of attendance for the course “Training for technical consultants in judicial proceedings” (second C.T.U. course, 30 hours, 12 September – 21 November 2002).
- Certificate of attendance for a professional course on Energy Manager for the civil, tertiary and healthcare sectors.
- Certificate of attendance for Energy Certification of Buildings.
- Qualification under Legislative Decree 494/96 and amendments on construction-site safety, now Legislative Decree 81/08, 120-hour course.

- Updated qualification in construction-site safety and risks under Legislative Decree 81/2008, 40-hour e-learning course from 5 January 2025 to 18 February 2025.
- Qualification under Law 818/84, specialised fire prevention training for engineers, with Ministry of the Interior identification code TO-08070-I-01254.
- Updated fire prevention qualification, 40-hour synchronous videoconference course, for maintaining registration in the Ministry of the Interior list of fire prevention professionals, from 8 January 2026 to 12 February 2026.
- Registration with the Register of Court Technical Consultants, file no. 2006/078 CTU of 13 December 2006, Engineers Category, Ordinary Court of Turin.
- 40-hour course for Court Technical Consultant, in line with the Cartabia Reform and Ministerial Decree 109/2023.
- Attendance certificate for Heating Systems Design, 30-hour course, Foundation of the Order of Engineers of the Province of Turin.
- Attendance certificate for the 40-hour update course for safety coordinators in temporary and mobile construction sites, held on 17 February 2009.
- Attendance certificate for the 40-hour update course for safety coordinators in temporary and mobile construction sites, organised by the Piedmont Region, issued on 12 February 2013.
- Registration in the regional list of professionals authorised to issue energy certification certificates, no. 101090.
- Registration from 2010 to 2015 in the list of professionals authorised to assess housing suitability for the City of Turin Social Services and Health Authorities Division.
- Registration in the Piedmont Region list of inspectors.
- English-language learning certificates from courses attended at British Institutes of Turin.

Personal skills

- **Mother tongue:** Italian.
- **Other languages:** English.
- **Reading:** [not specified in the source].
- **Writing:** [not specified in the source].
- **Oral expression:** [not specified in the source].

Communication skills

Excellent people-management skills developed in roles coordinating complex technical projects, with a focus on coaching, feedback and leadership for collaborative, proactive, goal-oriented teams. Strong ability to build lasting relationships with senior stakeholders, thanks to established relationships with public and private bodies. In-depth knowledge of local social and political dynamics, developed as President of District 5 of Turin since 26 October 2021, with direct contact with citizens' associations and volunteer organisations.

Organisational skills

Excellent planning, task management, problem-solving and decision-making skills, with strict respect for deadlines. Proven ability to coordinate complex structures, developed through the management of construction sites and public appointments. Expertise in budget management for the procurement of supplies, services and public works. Team coordination and administration supported by solid experience and a strong understanding of local government principles. As President of District 5 of Turin since 26 October 2021, he has led projects integrating volunteer associations and institutional bodies.

Technical skills

Strong abilities in strategic planning, project management, facility management for buildings and infrastructure, public-private partnership, public works, and procurement of goods and services. Excellent command of Windows and Microsoft Office. Extensive knowledge of engineering software, including Edilclima, Logical, Acca Software, Excel Progetto, Integrazione Software for low-/medium-voltage and photovoltaic electrical system design, MC4, AutoCAD, Blumatica, GanttProject, Termus and Primus, acquired through professional practice and specific training courses. Administrative and technical expertise in public works, mechanical systems, fire protection systems, and medical gas systems, certified by specialised training courses.

Artistic skills

Ability in freehand drawing and solid knowledge of technical drawing and graphic information processing. Ability to draft texts for print, training documentation and seminar materials, developed through professional experience and collaborations.

Other activities

Appointed on 7 February 2005 by the Turin Chamber of Commerce, Industry and Agriculture as full member of Commission No. 11 on Safety in the Price List of Civil and Plant Engineering Works. Former Vice-President of A.G.I.T. (Young Engineers Association of Turin). Member of UNI (Italian National Unification Body). Honorary member of A.N.I.T. (National Association for Thermal and Acoustic Insulation). Former councillor of District 6 of the City of Turin from 2001 to 2006 and from 2006 to 2011. President of District 5 (Borgo Vittoria, Madonna di Campagna, Lucento, Vallette) of the City of Turin, 2021–2027.

International projects

Project cycle management and formulation of international cooperation projects at the International Training Centre of the International Labour Organization (ITC-ILO), under Regional Law 13/2003, Article 3. He has also supported Politecnico di Torino students in drafting degree theses on elevator system design.

Driving licences

- Category B driving licence.
- Boat licence for vessels with unlimited power, navigation within 12 miles.

Additional information

Institutional role: President of District 5, City of Turin, from 26 October 2021 to 29 April 2025. He represented the District and performed all administrative acts not reserved by law and by the Statute to the District Council and Executive Board. He was a member of the decentralisation coordination committee; exercised powers delegated by the Mayor as Head of Administration and Government Officer; could celebrate civil marriages; oversaw the operation of services and offices and the execution of acts; granted free patronage after consulting the Executive Board and carried out acts not within managerial competence. He was interviewed by students of the Politecnico di Torino on urban redevelopment projects in District 5.
